

SUNTUITIVE– Self-tinting glass

Description

For optimum performance, the glass must always be designed as insulating glass in combination with a Low-E coating on the inner sheet. In addition, Suntuitive can be manufactured in various designs, including burglar-resistant and noise-resistant glass.

Important Features

- ▶ Works on solar heat
- ▶ A clear view of the outdoors
- ▶ More use of daylight
- ▶ Consistently more comfortable indoor temperatures
- ▶ Reduced glare
- ▶ Completely maintenance-free

Applications

- ▶ Roof
- ▶ Facade
- ▶ Skylight
